Driving license: B

Brief description

I am a very **motivated** student Informatics. I love this education and that makes me **work hard** for the many projects. I'm interested in practically everything in the field of computer science: programming, networking, system administration, ... I'm a **critical thinker** with a general interest in knowledge.

Besides that, I like hiking and sometimes you can find me on a race bike.

Education

2018–current **Master of Science in Computer Science**, *Ghent University*,

Currently: third bachelor year,

I passed all exams up to now.

2019–2021 **Honours programme 'Quetelet Colleges'**, *Ghent University*,

(Inter)national experts try to find the 'how' and 'why' of science, culture and society.

Together with the other selected students we debate these subjects.

Experience

2020 **Web developer student job**, *IDLab (Ugent - imec)*,

Full stack - Javascript,

The development of a prototype SolidProject app.

One month

2018-2019 **Shop assistant student job**, *Vereecke Middelkerke*.

Twice one month

Knowledge of programming languages
